

Lighting

Weatherproof Guarded Bulkhead Light

Cast in brass, the outside is polished and the inside is painted white to aid reflection. The hinged front door has a clear glass, which is protected by a brass wire guard, and is secured onto its seal with three evenly spaced wing nuts. The SBC bulb holder is wired through a brass cable gland and the unit is surfaced mounted on three legs.

Brass	Body Diameter	O.A.Diameter	Projection
7425/BR	4½" 114mm	6" 150mm	2½" 64mm

Aluminium Guarded Bulkhead Light

Similar to the above, this light is cast in aluminium and painted white inside and out. The clear glass front has aluminium guards and is held in place with four screws. A brass gland is fitted to wire the SBC bulb holder. A semi-recessed version is also available to special order.

Aluminium	Body Diameter	O.A.Diameter	Projection
7425/AL	4½" 114mm	5½" 140mm	2¼" 70mm

Step Light

Guarded step light with heavy ribbed glass, covered by a cast brass guard - polished finish. The rear box is recessed into the bulkhead with only 1" (24mm) projecting forwards. Ideal for low level lighting of stairways or other vulnerable interior or sheltered areas. Fitted SBC bulb holder. Max 15w.

NEW

Brass	Chrome	Width	Height	Recess
7576/BR/B15	7576/CP/B15	5½" 140mm	4⅞" 111mm	1½" 38mm

Copper Converters

A range of copper casings that fit over Aqua Signal series 40 lights to give them a pleasing traditional appearance. Ideal for classic and traditional boats where modern lights look out of place. The copper converter simply slips over the light and is permanently held in place by the bulb holder securing nut. The result is a light that looks, feels and weathers like a genuine old pattern lamp but, as the converter only covers the body of the light, all the approved aspects of the bulb and lens remain intact.
