

Lemon Peel

Lemon Peel is a water soluble paint stripper that removes most paints including graffiti, car body paint, and antifouling paints from most surfaces including wood, fiberglass and metal. It is biodegradable, user friendly and environmentally safe if used in accordance with the instructions on the label.

Description

- Water soluble
- Non flammable
- Easy clean up with water
- Non Toxic, non carcinogenic
- Not regulated for transportation or storage
- Pleasant citrus odour

Cost Effective

- Quicker easier and more effective than sanding and grinding
- Reduces labour hours-other work can continue while the stripper does its job

Typical Applications

- Effective on most paint systems including spray paints, urethanes, latex, varnish, lacquer and marine enamels.
- Safe on wood, metal, masonry, polyester* fiberglass and epoxy surfaces§

Safety

- Safer than most alternative paint stripping materials.
- Ingredients are used in small quantities in cosmetics and pharmaceuticals.
- Solvent action will defat skin in prolonged contact.
- Wear suitable gloves and eye protection. Ensure good ventilation.
